

Hello Parents,

May 5, 2020

We hope that this finds you and your family healthy and getting through this crazy, difficult time.

The Kindergarten teachers have been working hard to find a project for the children where they can learn about the events happening around them right now. That, of course, is COVID-19. It is a confusing time for them. We thought that putting a “Time Capsule” together would be a fun project and a great place for them to keep their memories of this time all in one place. Then, they could have fun burying it in the yard or putting it in a safe place until the day they decide to open it up – maybe their High School Graduation day!!

We have gathered some miscellaneous items (markers, stickers, jewels, beads, glitter and, we wouldn't want to forget, the infamous toilet paper roll! The only thing we need you to help them with is finding something to be used as the Capsule. We are also including a COVID-19 packet that includes coloring pages and informational pages. Much of it they can do on their own but a few pages will require adult help. Other item ideas for the Capsule could be photos, a mask, empty disinfectant wipe container, dated newspaper clippings, a completed homework lesson, favorite recipe, favorite book or even a favorite movie. Ask them to think about what they have been doing during this time and what items they would like to add to the Capsule.

With your permission, we would like to drop your child's bag at your front door. Maybe we can even say hello through your front door or window. We miss seeing all of the kids!

We hope the kids (and you) will have fun making memories together!!

Thinking of you,

Pam Ferraro
